

Injection Correction

CO2 Emission Control Products

**ANNOUNCING THE SUPERIOR ENVIROPLUS
FOR PETROL & DIESEL VEHICLES**

CLOGGING EMISSIONS?

CATALYTIC CONVERTER & POLLUTANT FILTER

ONE PRODUCT THAT CAN HELP PREVENT THIS PROBLEM, IF USED ON EVERY SERVICE, IS THE ALL-IN-ONE INJECTION CLEANER BY INJECTION CORRECTION THAT IS MADE FOR PETROLS, DIESELS & HYBRID ENGINES.

FOR DIESEL VEHICLES THAT ARE MAINLY USED FOR SHORT DISTANCES, THE FILTERS IN THE EXHAUST SYSTEM ARE RARELY HOT ENOUGH TO BURN OFF ALL THE RESIDUES, THEREFORE CLOGS UP THE FILTERS. IN SUCH CASES A REGENERATION PROGRAM STARTS AUTOMATICALLY, INJECTING MORE CLEANER TO ACHIEVE A HIGHER TEMPERATURE.
