CO2 Emission Control Products

SUPERIOR ALL-IN-ONE INJECTION CLEANER FOR PETROL & DIESEL

Restores power & performance by cleaning
the injectors, thus maintaining correct atomisation
of fuel for maximum economy

Improves hot & cold starting

Promotes smoother tickover at idle, no flat spots,
removes deposits from upper cylinder area in diesels

Dramatically reduces black exhaust smoke
& reduces exhaust emissions

Maintaining the cleanliness of the PCV & EGR valves

Lubricate the injectors & the fuel pump

Cleans the entire fuel system & is completely
catalytic converter friendly

Safe with all high pressure common rail systems

Increase miles per gallon

Prevent sticky valve problems by the build up of carbons,
gums, wax and other fuel impurities present as a result
of using poor quality, UNBRANDED or SUPERMARKET fuels

Prevents fungi growth in fuel tanks
